HILLWALKING INFO.

There are many beautiful hills on the Isle of Skye out with the Black Cuillin. The Red Cuillin, Trotternish, MacLeod's Tables and many others offer great challenges that you can enjoy with basic fitness and little previous experience of hill walking. There are also great camping locations for overnight trips at Camasunary (in the heart of the mountains) and at Olisdal, a remote location at the back of MacLeod's Tables.

The Old Man of Storr

A stunning walk to the iconic rock pillar and incredible cliffs of the Storr. This walk continues up onto the Trotternish ridge itself and boasts great views to the North-West highlands and out to the Western Isles

Marsco or the Red Cuillin

There are any number of hills in the Red Cuillin all of which offer lovely hill-walking, some with gentle scrambling and some with nothing but great walking. All offer great views to the mainland and over to the main Cuillin ridge and over to Bla Bheinn and Clach Glas.

Mcleods Tables

Head to the north-west of Skye and climb the spectacular hills of Healabhal Mhor and Healabhal Beag. These flat topped hills allow great views across to the Cuillin and feel surrounded by the sea. This is a quiet corner of Skye and offers a great chance to get away from it all.
